ABOUT US

„Furajny Hrany” Ltd. is a leading producer of extruded pet food in the super premium, premium and basic market segment.

All started in 1993 and since then the company creates, develops and applies the industry's newelities. Pet foods are manufactured on three production lines with total capacity of 13 tons per hour.

„Furajny Hrany” Ltd. is applying modern and effective quality control systems, as well as following the standards at all stages of production, storage and distribution of the products. The guaranteed high-quality of own brands: „Premium Dog Food”, „Ljubimetz”, „Hit”; „Kiara”; „Chocky” and „Animania”, makes them highly preferred products among pets.

Team's ambitions for continuous upgrading and growth, position the company as an undisputable long-term leader in pet food production in the country and abroad.

Company mission

- To meet customers' expectations by producing high-quality products.
- To improve constantly the production technology and equipment.
- To communicate clearly and fairly all the quality aspects with customers and suppliers and to maintain mutually beneficial cooperation with all stakeholders.
- To keep expanding market positions through constant marketing and advertising activities.
- To constantly invest and boost our officers' qualifications and corporate culture.
- To plan properly and improve constantly work organization.

Quality control

The implementation, maintenance and development in the company of an effective integrated system for monitoring over the quality and safety, as per ISO 9001 and the requirements of ISO 22000 is a main driver to achieve:

- Guaranteed production of quality pet food with high safety level.
- High customers' loyalty and trust as well as a broadened market presence.
- Constant improvement in any aspects of all performed activities.

Certificates

The integrated system for Quality Control and Management of the products had been officially introduced in 2018 and certified by SGS.

Quality Control Department applies and sustains the main requirements of ISO 9001 and ISO 22000 in all stages of production, storage and product distribution.

The sustainable vision of “Furajny Hrany” for loyalty and integrity towards customers, officers and suppliers, enables the company to ace the production, storage and distribution of pet food. Company's warehouses for raw materials and finished products are with a total capacity of 3000 tn.

DRY DOG FOOD

PREMIUM DOG FOOD

Complete high-quality dog food, developed on the basis of special premium formula. Contains a high quantity of fresh meat in its composition. Food is rich in easily digestible animal proteins. Well-balanced dog food which is suitable for all dog breeds.

Chicken and duck with potatoes

Premium Dog Food – Chicken and duck with potatoes is a complete premium dog food, which optimally covers all daily nutritional needs of your pet. The combination of fresh white chicken meat and fresh red duck meat provides optimal digestion of the food without burdening your pet's gastric tract. Salmon oil provides the necessary Omega 3 and Omega 6 polyunsaturated fatty acids. And through linseed, which is part of the composition, your dog takes its necessary Omega 9 polyunsaturated fatty acids. All our carefully selected ingredients make the food extremely nutritious and amazingly tasty.

Composition: Fresh duck meat 17%, fresh poultry meat 17%, chicken meal 23%, duck meal 5%, potato meal 20%, duck fat, chicken liver broth, pea flour, brewer's yeast, beet pulp, salmon oil, dried apples, linseed, dried carrots, prebiotic (mannan oligosaccharide), herbal mix (chicory, thyme, dandelion, hibiscus, rosehip, rosemary, spirulina, parsley), vitamin-mineral premix, yucca shidigera, omega 3-DHA, beta carotene, glucosamine, chondroitin.

Contains 34% of fresh meat

28% crude protein	15% crude fat	2% crude fiber	6,8% crude ash
-----------------------------	-------------------------	--------------------------	--------------------------

Beef, pork and fish with potatoes

Premium Dog Food – Beef, pork and fish with potatoes is a complete premium dog food, which optimally covers all daily nutritional needs of your pet. Combination of fresh red meats and fresh salmon provides a balanced diversity of amino acids and guarantee an excellent absorption without burdening your pet's digestive tract. The added two types of potato ensure a continuous flow of energy, while the food doesn't have high glycaemic index. The combined beef and pork fat as well as the salmon oil contribute to the optimal growth, as well as the smooth skin, shiny coat and healthy muscles of your dog.

Composition: Fresh salmon meat 20%, fresh pork 20%, beef meal 10%, pork meal 10%, potato meal 20%, sweet potato, pea meal 5%, brewer's yeast, dried apples, vegetable mix (carrot, tomato), linseed, chicory, milk thistle, dandelion, hibiscus, rose hip, rosemary, algae, prebiotic (mannan oligosaccharide), vitamin-mineral premix, beef and pork fat, pork liver flavour, salmon oil, probiotic, antioxidant, yucca shidigera, omega 3-DHA, beta carotene.

Contains 40% of fresh meat.

Monoprotein dog food - Turkey meat

LJUBIMETZ®

Ljubimetz Turkey meat is a complete monoprotein food for adult dogs, developed on the basis of special hypoallergenic formula. High content of turkey meat provides easily digestible animal protein. Turkey meat is used during increased physical activity, as it is low in fats and provides a longer flow of amino acids into the blood. Turkey meat protein slows the loss of muscle mass of the dog and contributes to its longevity. The presence of B vitamins and minerals in turkey meat helps to keep your dog's teeth and bite healthy. Glucosamine and chondroitin maintain the strength of joint surfaces in aging dogs or dogs with systemically high physical activity.

Composition: Fresh and dehydrated turkey meat, /43%, rice, potato, corn, peas, animal fat, turkey broth, hydrolyzed poultry liver, beet pulp, apple, rosemary, vitamin-mineral premix, glucosamine, chondroitin, antioxidant, mold inhibitor.

27% crude protein	15% crude fat	2,6% crude fiber	8% crude ash
--------------------------------	----------------------------	-------------------------------	---------------------------

Monoprotein dog food - Veal meat

LJUBIMETZ®

Ljubimetz Veal meat is a complete monoprotein food for adult dogs, developed on the basis of special hypoallergenic formula. Contains beef, which provides easily digestible animal protein. It is an excellent nutritional source of iron and phosphorus, which are essential for the dog's energy and healthy growth. The presence of zinc in the main protein helps to maintain strong immunity. Beef is a rich source of Omega 3 and linoleic acid, which function is to block fat growth and accelerate the rate of fat burning. The balanced level of vitamins and the variety of amino acids in beef contribute to the complete nutrition of your pet.

Composition: Fresh and dehydrated beef meat, /44%, rice, potato, corn, peas, beef fat, beef broth, hydrolyzed liver, beet pulp, apple, rosemary, vitamin mineral premix, glucosamine, chondroitin, antioxidant, mold inhibitor.

27% crude protein	15% crude fat	2,5% crude fiber	8% crude ash
--------------------------------	----------------------------	-------------------------------	---------------------------

Monoprotein dog food - Duck meat

LJUBIMETZ®

Ljubimetz Duck meat is a complete monoprotein food for adult dogs, developed on the basis of special hypoallergenic formula. Contains duck meat as a source of digestible animal protein. Duck meat is rich in B vitamins and minerals (selenium, iron, zinc), which strengthen the immune system and regulate metabolism. Duck protein is easily digestible and has a balanced composition of amino acids. Although duck meat has gained popularity as „fattier“, it is high in beneficial unsaturated fatty acids, which help build strong bones and muscles. Duck meat is preferred by a large part of dogs because of its taste and it is highly suitable for the ones prone to food allergies.

Composition: Fresh and dehydrated duck meat, /44%, rice, potato, corn, peas, duck fat, duck broth, hydrolyzed poultry liver, beet pulp, apple, rosemary, vitamin-mineral premix, glucosamine, chondroitin, antioxidant, mold inhibitor.

27% crude protein	15% crude fat	2,7% crude fiber	8% crude ash
--------------------------------	----------------------------	-------------------------------	---------------------------

Monoprotein dog food - Fish

LJUBIMETZ®

Ljubimetz Fish is a complete monoprotein food for adult dogs, developed on the basis of special hypoallergenic formula. Fish provides easily digestible animal protein, vitamins and minerals, and is an excellent source of organically bound selenium. It stops oxidative stress, slows down aging, contributing to the longevity of your pet. The additional fish oil included in the food composition promotes bone development and improves your dog's visual acuity and brain activity. The presence of Omega 3 and Omega 6 in the food contribute to maintaining healthy skin and coat. They limit the risk of skin allergies, which is especially important in older dogs.

Composition: Dehydrated whole fish meat, fresh fish meat /min.5%, rice, corn, peas, fish oil, animal fat, beet pulp, apple, broth, vitamin-mineral premix, glucosamine, chondroitin, antioxidant, mold inhibitor.

24% crude protein	15% crude fat	1,99% crude fiber	7,3% crude ash
